Graphic Designer and Social Media Manager with experience in branding, digital marketing, content creation, and UI/UX design. Skilled in creating engaging marketing materials, social media content, and visual designs, with a background in executive administrative support in the insurance industry.

Work Experience

Graphic Designer & Social Media Manager

Freelance/Self-employed-Mabalacat

July 2023 to July 2026

- Created engaging social media content, branding materials, advertisements, and short-form videos for clients in the school, veterinary, and food industries, helping strengthen brand awareness and online presence.
- Designed high-quality graphics using Figma and Canva, ensuring visual consistency and alignment with each client's brand identity across digital platforms.
- Collaborated with clients to develop creative marketing assets tailored to their goals, increasing audience engagement and delivering content that effectively communicated their brand message.

Personal Executive Assistant

Swak BPO-Clark, Pampanga

July 2025 to April 2026

- Managed insurance documentation, including Certificate of Insurance (COI) processing, invoicing, and digital record management, ensuring accuracy, compliance, and timely completion of client requests.
- Coordinated with clients, account managers, and internal teams to schedule meetings, process updates, and streamline insurance workflows, improving communication and operational efficiency.
- Organized calendars, tracked renewals, deadlines, and administrative tasks, maintaining efficient workflows and supporting faster turnaround times in a fast-paced insurance environment.

UI/UX Designer Intern

Clark Outsourcing-Clark, Pampanga

July 2024 to October 2024

- Designed intuitive and responsive UI/UX for three websites using Figma, creating wireframes, prototypes, and design assets that improved user experience and supported seamless developer implementation.
- Developed custom icons and branding elements, including a website logo, strengthening visual identity and enhancing navigation within the HRIS application.
- Collaborated with developers to apply responsive design principles across multiple devices, ensuring consistent functionality, improved usability, and a polished user experience.
